Subject index

Acetonitrile
Electrochemistry of anilines. Part 4. Determination of the rate and equilibrium constants for the protonation of 2,6-di-t-butyl-4-(4′-R-phenyl)-anilines in acetonitrile from cyclic voltammetric data (Hertl et al.) 37
Electrooxidative polymerization of cobalt, nickel and manganese salen complexes in acetonitrile solution (Bedioui et al.) 267
The effect of anilinium ion on electropolymerisation of fibrous polyaniline in acetonitrile (Kanamura et al.) 291
Anilines
Electrochemistry of anilines. Part 4. Determination of the rate and equilibrium constants for the protonation of 2,6-di-t-butyl-4-(4′-R-phenyl)-anilines in acetonitrile from cyclic voltammetric data (Hertl et al.) 37
Anilinium ion
The effect of anilinium ion on electropolymerisation of fibrous polyaniline in acetonitrile (Kanamura et al.) 291
Autocatalytic deposition
Autocatalytic deposition of compound semiconductors (Rao et al.) 279

Cadmium sulphide
Transfer of ions and electrons at anodic cadmium sulphide films (Krebs et al.) 101
Calcium
Influence of Ca^{2+} ions on CO adsorption at a Pt electrode: in situ FT-IR spectrometry (Aramata, Enyo) 275
Carbon monoxide
Influence of Ca^{2+} ions on CO adsorption at a Pt electrode: in situ FT-IR spectrometry (Aramata, Enyo) 275
Carbonyl rhodium clusters
Infrared spectroscopic study of the formation of carbonyl rhodium clusters on a rhodium electrode produced by oxidation–reduction cycles in acidic solution (Ikezawa et al.) 241
Cerium
Polarographic studies of the Eu(III)–Ce(IV) system and its application to Eu(III) determination (Korolczuk et al.) 253
Cholesterol oxidase
Conferment of cholesterol sensitivity on polypyrrole films by immobilization of cholesterol oxidase and ferrocenecarboxylate ions (Kajiya et al.) 155
Cholesterol sensitivity
Conferment of cholesterol sensitivity on polypyrrole films by immobilisation of cholesterol oxidase and ferrocenecarboxylate ions (Kajiya et al.) 155
Cobalt
Electrooxidative polymerization of cobalt, nickel and manganese salen complexes in acetonitrile solution (Bedioui et al.) 267
Electroreflectance spectroscopic study of a dicobalt cofacial porphyrin, Co_2FTF4, adsorbed on gold and graphite electrodes (Ngameni et al.) 207
Compound semiconductors
Autocatalytic deposition of compound semiconductors (Rao et al.) 279
Contact glow discharge electrolysis
Contact glow discharge electrolysis: a study of its onset and location (Sengupta, Singh) 189
Curvature of drop
Determination of potential of zero charge of a mercury electrode by dispersion of reflected light, dependent on curvature of a drop (Conway, Colledan) 53
Cyclic voltammetry
Chemical information from electroanalytical data. Part 2. Determination of the rate and equilibrium constants of a chemical reaction preceding a reversible electron transfer from cyclic voltammetric data (Speiser) 15
Electrochemistry of anilines. Part 4. Determination of the rate and equilibrium con-

stants for the protonation of 2,6-di-t-butyl-4-(4′-R-phenyl)-anilines in acetonitrile from cyclic voltammetric data (Hertl et al.) 37

Cytochrome *c*

Binding of 4-pyridyl derivatives to horse-heart cytochrome *c* (Sagara et al.) 285

Dicobalt cofacial porphyrin

Electroreflectance spectroscopic study of a dicobalt cofacial porphyrin, Co_2FTF4, adsorbed on gold and graphite electrodes (Ngameni et al.) 207

Diffusion coefficient

Studies of the solvated electron in Li salt + HMPA solutions using the rotating ring–disk electrode technique. Part 1. Non-uniform current distribution and determination of the solvated electron diffusion coefficient (Van Andel et al.) 87

Diffusional current contributions

Kinetic and diffusional current contributions in the anodic dissolution of p-Si immersed in fluoride electrolytes (Etman et al.) 259

Digital simulation

Digital simulation via the hopscotch algorithm of a microelectrode-based channel flow-through amperometric detector (Pastore et al.) 1

Discharge electrolysis

Contact glow discharge electrolysis: a study of its onset and location (Sengupta, Singh) 189

Electromodulated infrared spectroscopy

Electromodulated infrared spectroscopy of methanol electrooxidation on electrodispersed platinum electrodes. Enhancement of reactive intermediates (Beden et al.) 129

Electron transfer

Transfer of ions and electrons at anodic cadmium sulphide films (Krebs et al.) 101

Electroreflectance spectroscopy

Electroreflectance spectroscopic study of a dicobalt cofacial porphyrin, Co_2FTF4, adsorbed on gold and graphite electrodes (Ngameni et al.) 207

Equilibrium constants

Chemical information from electroanalytical data. Part 2. Determination of the rate and equilibrium constants of a chemical reaction preceding a reversible electron transfer from cyclic voltammetric data (Speiser) 15

Electrochemistry of anilines. Part 4. Determination of the rate and equilibrium constants for the protonation of 2,6-di-t-butyl-4-(4′-R-phenyl)-anilines in acetonitrile from cyclic voltammetric data (Hertl et al.) 37

Europium

Polarographic studies of the Eu(III)–Ce(IV) system and its application to Eu(III) determination (Korolczuk et al.) 253

Ferrocene

Kinetics of glassy carbon electrodes coated with polystyrene films containing ferrocene and ionic surface-active agents (Kuwabata et al.) 165

Ferrocenecarboxylate ions

Conferment of cholesterol sensitivity on polypyrrole films by immobilization of cholesterol oxidase and ferrocenecarboxylate ions (Kajiya et al.) 155

Fibrous polyaniline

The effect of anilinium ion on electropolymerisation of fibrous polyaniline in acetonitrile (Kanamura et al.) 291

Flow-through amperometer

Digital simulation via the hopscotch algorithm of a microelectrode-based channel flow-through amperometric detector (Pastore et al.) 1

Fluoride electrolytes

Kinetic and diffusional current contributions in the anodic dissolution of p-Si immersed in fluoride electrolytes (Etman et al.) 259

Formaldehyde

Comparative investigation of formic acid and formaldehyde oxidation on palladium by a rotating ring–disc electrode and on-line mass spectroscopy in acidic solutions (Pavese, Solís) 117

Formic acid

Comparative investigation of formic acid and formaldehyde oxidation on palladium by a rotating ring–disc electrode and on-line mass spectroscopy in acidic solutions (Pavese, Solís) 117

FT-IR spectrometry

Influence of Ca^{2+} ions on CO adsorption at a Pt electrode: in situ FT-IR spectrometry (Aramata, Enyo) 275

Fumarate anions

Effect of fumarate anions on the cyclic voltammetry and capacity of the gold/aqueous

electrolyte interface (Dutkiewicz, Skołuda) 247

Gallium
Comparative adsorption study of thiourea on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 227

Galvanostatic *iR* compensation
A modified galvanostatic *iR* compensation method for electrochemical measurements at liquid–liquid interfaces (Wilke) 67

Glassy carbon
Kinetics of glassy carbon electrodes coated with polystyrene films containing ferrocene and ionic surface-active agents (Kuwabata et al.) 165
Photoelectrochemical properties of Prussian Blue-modified glassy carbon (Upadhyay et al.) 199

Glow discharge electrolysis
Contact glow discharge electrolysis: a study of its onset and location (Sengupta, Singh) 189

Gold
Changes in the iron(III)/iron(II) redox process at a gold microelectrode in liquid and frozen low temperature perchloric and sulfuric acid electrolyte media (Bond, Švestka) 139
Effect of fumarate anions on the cyclic voltammetry and capacity of the gold/aqueous electrolyte interface (Dutkiewicz, Skołuda) 247
Electroreflectance spectroscopic study of a dicobalt cofacial porphyrin, Co_2FTF4, adsorbed on gold and graphite electrodes (Ngameni et al.) 207

Graphite
Electroreflectance spectroscopic study of a dicobalt cofacial porphyrin, Co_2FTF4, adsorbed on gold and graphite electrodes (Ngameni et al.) 207

Hexamethylphosphortriamide
Studies of the solvated electron in Li salt + HMPA solutions using the rotating ring–disk electrode technique. Part 1. Non-uniform current distribution and determination of the solvated electron diffusion coefficient (Van Andel et al.) 87

Hopscotch algorithm
Digital simulation via the hopscotch algorithm of a microelectrode-based channel flow-through amperometric detector (Pastore et al.) 1

Horse-heart cytochrome *c*
Binding of 4-pyridyl derivatives to horse-heart cytochrome *c* (Sagara et al.) 285

Immobilized cholesterol oxidase
Conferment of cholesterol sensitivity on polypyrrole films by immobilization of cholesterol oxidase and ferrocenecarboxylate ions (Kajiya et al.) 155

Infrared spectroscopy
Electromodulated infrared spectroscopy of methanol electrooxidation on electrodispersed platinum electrodes. Enhancement of reactive intermediates (Beden et al.) 129
Infrared spectroscopic study of the formation of carbonyl rhodium clusters on a rhodium electrode produced by oxidation–reduction cycles in acidic solution (Ikezawa et al.) 241

Ion transfer
Transfer of ions and electrons at anodic cadmium sulphide films (Krebs et al.) 101

Iridium
An iridium based mercury ultramicroelectrode. Fabrication and characterization (Kounaves, Deng) 77

Iron
Changes in the iron(III)/iron(II) redox process at a gold microelectrode in liquid and frozen low temperature perchloric and sulfuric acid electrolyte media (Bond, Švestka) 139

Kinetic contributions
Kinetic and diffusional current contributions in the anodic dissolution of p-Si immersed in fluoride electrolytes (Etman et al.) 259

Lithium
Studies of the solvated electron in Li salt + HMPA solutions using the rotating ring–disk electrode technique. Part 1. Non-uniform current distribution and determination of the solvated electron diffusion coefficient (Van Andel et al.) 87

Low temperature electrolyte media
Changes in the iron(III)/iron(II) redox process at a gold microelectrode in liquid and frozen low temperature perchloric and sulfuric acid electrolyte media (Bond, Švestka) 139

Manganese
Electrooxidative polymerization of cobalt, nickel and manganese salen complexes in acetonitrile solution (Bedioui et al.) 267
Mass spectroscopy
Comparative investigation of formic acid and formaldehyde oxidation on palladium by a rotating ring–disc electrode and on-line mass spectroscopy in acidic solutions (Pavese, Solís) 117
Mercury
An iridium based mercury ultramicroelectrode. Fabrication and characterization (Kounaves, Deng) 77
Comparative adsorption study of thiourea on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 227
Determination of potential of zero charge of a mercury electrode by dispersion of reflected light, dependent on curvature of a drop (Conway, Colledan) 53
Methanol
Electromodulated infrared spectroscopy of methanol electrooxidation on electrodispersed platinum electrodes. Enhancement of reactive intermediates (Beden et al.) 129
Microelectrodes
Changes in the iron(III)/iron(II) redox process at a gold microelectrode in liquid and frozen low temperature perchloric and sulfuric acid electrolyte media (Bond, Švestka) 139
Digital simulation via the hopscotch algorithm of a microelectrode-based channel flow-through amperometric detector (Pastore et al.) 1

Nickel
Electrooxidative polymerization of cobalt, nickel and manganese salen complexes in acetonitrile solution (Bedioui et al.) 267
Non-uniform current distribution
Studies of the solvated electron in Li salt + HMPA solutions using the rotating ring-disk electrode technique. Part 1. Non-uniform current distribution and determination of the solvated electron diffusion coefficient (Van Andel et al.) 87

Ohmic drop
A modified galvanostatic *iR* compensation method for electrochemical measurements at liquid–liquid interfaces (Wilke) 67

Oxygen
Electrochemical reduction of molecular oxygen on platinum single crystals (El Kadiri et al.) 177

Palladium
Comparative investigation of formic acid and formaldehyde oxidation on palladium by a rotating ring–disc electrode and on-line mass spectroscopy in acidic solutions (Pavese, Solís) 117
Perchloric acid
Changes in the iron(III)/iron(II) redox process at a gold microelectrode in liquid and frozen low temperature perchloric and sulfuric acid electrolyte media (Bond, Švestka) 139
Platinum
Electrochemical reduction of molecular oxygen on platinum single crystals (El Kadiri et al.) 177
Electromodulated infrared spectroscopy of methanol electrooxidation on electrodispersed platinum electrodes. Enhancement of reactive intermediates (Beden et al.) 129
Influence of Ca^{2+} ions on CO adsorption at a Pt electrode: in situ FT-IR spectrometry (Aramata, Enyo) 275
Polymerization
Electrooxidative polymerization of cobalt, nickel and manganese salen complexes in acetonitrile solution (Bedioui et al.) 267
Polypyrrole films
Conferment of cholesterol sensitivity on polypyrrole films by immobilization of cholesterol oxidase and ferrocenecarboxylate ions (Kajiya et al.) 155
Polystyrene films
Kinetics of glassy carbon electrodes coated with polystyrene films containing ferrocene and ionic surface-active agents (Kuwabata et al.) 165
Porphyrin
Electroreflectance spectroscopic study of a dicobalt cofacial porphyrin, Co_2FTF4, adsorbed on gold and graphite electrodes (Ngameni et al.) 207
Protonation
Electrochemistry of anilines. Part 4. Determination of the rate and equilibrium constants for the protonation of 2,6-di-t-butyl-4-(4′-R-phenyl)-anilines in acetonitrile from cyclic voltammetric data (Hertl et al.) 37

Prussian Blue
Photoelectrochemical properties of Prussian Blue-modified glassy carbon (Upadhyay et al.) 199
Pyridyl derivatives
Binding of 4-pyridyl derivatives to horse-heart cytochrome *c* (Sagara et al.) 285

Rate constants
Chemical information from electroanalytical data. Part 2. Determination of the rate and equilibrium constants of a chemical reaction preceding a reversible electron transfer from cyclic voltammetric data (Speiser) 15
Electrochemistry of anilines. Part 4. Determination of the rate and equilibrium constants for the protonation of 2,6-di-t-butyl-4-(4′-R-phenyl)-anilines in acetonitrile from cyclic voltammetric data (Hertl et al.) 37
Reflected light dispersion
Determination of potential of zero charge of a mercury electrode by dispersion of reflected light, dependent on curvature of a drop (Conway, Colledan) 53
Reversible electron transfer
Chemical information from electroanalytical data. Part 2. Determination of the rate and equilibrium constants of a chemical reaction preceding a reversible electron transfer from cyclic voltammetric data (Speiser) 15
Rhodium
Infrared spectroscopic study of the formation of carbonyl rhodium clusters on a rhodium electrode produced by oxidation–reduction cycles in acidic solution (Ikezawa et al.) 241
Rotating ring–disc electrode
Comparative investigation of formic acid and formaldehyde oxidation on palladium by a rotating ring–disc electrode and on-line mass spectroscopy in acidic solutions (Pavese, Solís) 117
Studies of the solvated electron in Li salt + HMPA solutions using the rotating ring–disk electrode technique. Part 1. Non-uniform current distribution and determination of the solvated electron diffusion coefficient (Van Andel et al.) 87

Salen
Electrooxidative polymerization of cobalt, nickel and manganese salen complexes in acetonitrile solution (Bedioui et al.) 267
Semiconductors
Autocatalytic deposition of compound semiconductors (Rao et al.) 279
Silicon
Kinetic and diffusional current contributions in the anodic dissolution of p-Si immersed in fluoride electrolytes (Etman et al.) 259
Single crystals
Electrochemical reduction of molecular oxygen on platinum single crystals (El Kadiri et al.) 177
Sodium sulphate
Comparative adsorption study of thiourea on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 227
Solvated electron
Studies of the solvated electron in Li salt + HMPA solutions using the rotating ring–disk electrode technique. Part 1. Non-uniform current distribution and determination of the solvated electron diffusion coefficient (Van Andel et al.) 87
Sulfuric acid
Changes in the iron(III)/iron(II) redox process at a gold microelectrode in liquid and frozen low temperature perchloric and sulfuric acid electrolyte media (Bond, Švestka) 139

Thiourea
Comparative adsorption study of thiourea on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 227

Ultramicroelectrode
An iridium based mercury ultramicroelectrode. Fabrication and characterization (Kounaves, Deng) 77
